Re: Docket #98N-1038, "Irradiation in the Production, Processing, and Handling of Food"

To whom it may concern:

I firmly believe the FDA should retain the current labeling law, the current terminology of "treated with radiation" or "treated by irradiation," and the use of the radura symbol on all irradiated whole foods. We, the public, have the right to know what treatment our food products have received and should be free to make our own choice.

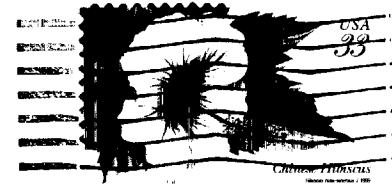

Sincerely,

JoAnn F. Meyer
